## Summary

- Industrious Student offering an excellent academic background in Computer Engineering in addition to a diverse skill set. Analytical Programmer possessing strong knowledge of C, C++ programming along with Web Development skills. Able to quickly master new software technologies.

## Education

### Gandhinagar Institute of Technology

Bachelor's Degree  
Kalol, Gujarat  
Graduated May 2019

- I scored 7.9 CGPA in Bachelor's in Computer Engineering .Handled the role of being the Sports Class Representative of the Computer branch for the last two consecutive years, a responsibility that included acting as the bridge between the students and the administration, scheduling additional practice session for the players, encouraging friends to engage more and more in different indoor and outdoor games and assisting the players in case of any problems which indicates hustle in participation and leadership skills.
- This experience brought to the fore my leadership abilities, while also assisting in honing my social skills. I was the Leader of my Final Year Project team too.
- We, as a team created an application for Carpooling to help students or people travelling on daily basis to make their travel cheap and efficient. Currently, I am developing Python and AngularJS skills.

### Saint Xavier's High School

S.S.C and H.S.C  
Adipur, Gujarat

- I secured 79% in my S.S.C Examination whereas I scored 68% in H.S.C(Science Stream). I completed my S.S.C and H.S.C from Gujarat Board.

## Work Experience

### Prakshal IT Academy

Part time Teacher  
Ahmedabad, Gujarat

- Taught students programming languages like C, C++, Java and also Web development.
- Improved student's analytical skills by introducing state-of-the-art computer program technologies.
- Created new lesson plans based on course objectives.
- Documented student attendance and progress against goals.
- Word on MS-Word to create various test papers for the students.

### Silverwing Technologies Pvt Ltd

Internship  
Ahmedabad, Gujarat  
August 2017 – October 2017

- I was taught about web development and its importance, ways to build dynamic web pages using amazing technologies like HTML, CSS, JavaScript, Bootstrap, JQuery, and many more. I also did a couple of projects given by them.

## Hobbies & Interests
